**GOVT. MAMIT COLLEGE
STUDENT MENTORING SYSTEM**

(2021-2022)

The Student Mentoring Cell and the IQAC, Government Mamit College have introduced Student Mentoring System from the **academic session 2021-22**. In order to resolve their day to day academic and related problems, the students of the institution are allotted mentors from among the faculty members. All students of the college are equally distributed among the faculty. The primary duty of a mentor is to counsel his/her respective mentees to solve the issues face by them during their course of study. This is a continuous process till the end of the academic career of the student in the institution.

The motivation behind the implementation of the mentoring system is to inculcate discipline and punctuality among the students. It aims at addressing conflicts in attitude, habits and talent of the students towards learning practices.

Main objectives of the Mentoring System are:

- To provide students with maximum access opportunity to the teachers
- To improve teacher-student relationship
- Counselling students for solving their problems and provide confidence to improve their quality of life
- Guiding students to choose the right path for higher studies, jobs, entrepreneurship etc

The practice:

Each and every student is to be given necessary ideas regarding the working of the entire mentoring mechanism. The list of respective mentor and his/her mentees are to be displayed in college notice boards. It is to include contact numbers of both the mentor and the mentees. This will enable an easy and constant communication between the teacher and students. Mentor along with his mentees can create Whatsapp group to share queries and disseminate information and ideas.

Counselling sessions are to be organized to identify the difficulties of the students and help them to find suitable solutions. Besides regular counselling sessions, a mentor can visit homes of individual students and share his/her ideas with the parents. The mentor has to look after class attendance, punctuality and discipline of the mentee, and maintain the record of overall progress of his/her mentee.

Expected Outcomes:

- To increase the attendance percentage of the students
- To reduce the number of dropout students
- To improve the academic performance of the students
- To establish a cordial and better relationship between teacher and students

- # It is mandatory for each Mentor to maintain the record of activities done throughout every academic session. That is to keep mentor-wise record of issues raised and resolve in the mentoring system for verification.
- # Register for keeping activity record can be asked from the administration.
